Re: MWRA Annual Maintenance Program

Dear Mr. Grover:

The MWRA's Metropolitan Operations is continuing its FY 2016 Valve Exercising Program. This maintenance program includes the exercising of main line, blow off, and air valves along our pipeline sections. Excavation of paved surfaces will not be necessary for this program.

During the month of **January 2016** MWRA personnel will perform the above referenced maintenance work on various MWRA water mains including MWRA section 29. This work may create discolored water and is not expected to make any pressure losses at the meters listed below. Discolored water may be anticipated for three days after the work is completed.

<u>METERS</u>	<u>LOCATION</u>	<u>PRESURE LOSSES/DISCOLORED WATER</u>
53	Main Street @ South Street	0 psi/Possible
70	Woodland Road @ Gillis Pump Station	0 psi/Possible
138	North Border Road. near Main Street	0 psi/Possible

Upon your request and prior to beginning the program, the Authority's Public Affairs Section will use the appropriate media to notify the general public. If there is a specific media entity that you feel should be contacted, please call Jeffrey McLaughlin at 617-305-5762, or Ria Convery at 617-788-1105.

Also, prior to beginning the work, the Authority's Operations section will call you on the day the work begins and follow up until the work has been completed.

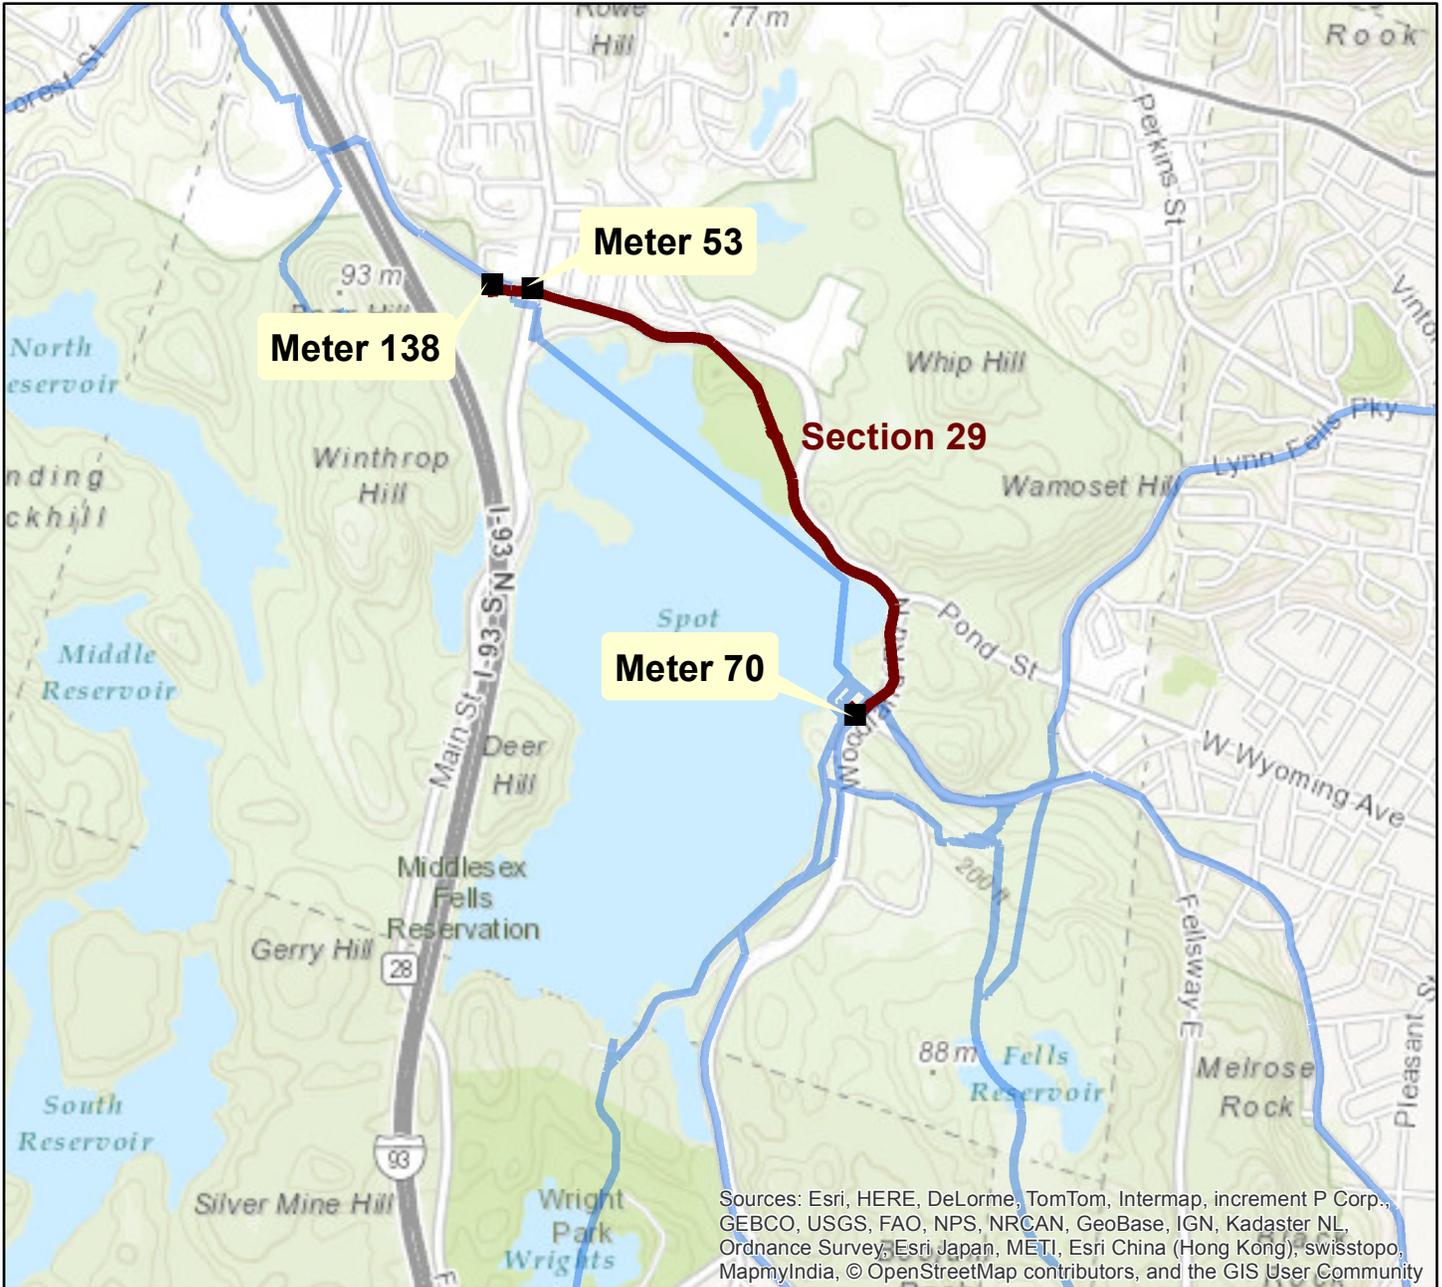

If you have any questions or comments, please do not hesitate to contact me directly at 617-305-5813. Again, we will strive to work closely with you so as to minimize the disruption to the public's water supply

Yours truly,  
  
Valerie Moran  
Manager, Operations Engineering
