Attachments: Street Light Log Report 9-4-2015.pdf

Good Afternoon,

Attached per your request is the Street Light Log; Page 1 is currently outstanding and Page 2 is completed since June 1 when a new electrical contract was hired through public bidding.

Contract Basics:

Calls are logged and submitted Tuesday to the electrical contractor
Electrical Contractor performs Routine Batch Maintenance "RBM" on Wednesday (weather dependent)
Electrical Contractor reports status of previous week RBM prior to following weeks RBM

Underground Repairs:

Underground repairs are extremely expensive due to many of the Town's cables being direct buried during previous subdivision expansion.

Public Works Department, through a Town Article, received \$10,000 to make repairs.

Street lights at 27 & 29 Fieldstone are scheduled to be repaired after Labor Day. Estimated cost \$10,000 to \$11,000.

Re: Tri-Community Bikeway (EEA #15403)
Environmental Notification Form (ENF)
Comment Period Extension

To Whom It May Concern:

An Environmental Notification Form (ENF) for the Tri-Community Bikeway Project (EEA #15403) was submitted to the Executive Office of Energy and Environmental Affairs (EEA), and distributed for public review on August 26, 2015. The comment period for the ENF was scheduled to close on September 15, 2015.

As the project proponent, we have submitted a request to the EEA Secretary that the ENF comment period for the project be extended by two weeks to September 29, 2015. The Secretary has granted this request.

The public comment period has been extended because, pursuant to provisions within the Massachusetts Wetlands Protection Act (310 CMR 10.05(7)), a citizen's group of ten or more persons has appealed the Order of Conditions issued by the Winchester Conservation Commission and has requested that MADEP issue a Superseding Order of Conditions (SOOC). As the issuance of a SOOC is an 'Agency Action', the public is provided the opportunity to comment on this action during the MEPA review period.

As noted the comment period has been extended to September 29, 2015.

All comments regarding this ENF should be sent to:

Secretary Matthew Beaton
Executive Office of Energy & Environmental Affairs
Attn: MEPA Office (EEA #15403)
100 Cambridge Street, Suite 900
Boston, MA 02114

Please send a copy of your comments to our design consultant Project Manager:
