Re: NSTAR Electric Company d/b/a Eversource Energy and New England Power Company  
d/b/a National Grid, EFSB 15-04/D.P.U. 15-140; 15-141

Dear Ms. Sagarino:

On this date, NSTAR Electric Company d/b/a Eversource Energy and New England Power Company d/b/a National Grid (together, the "Companies") have filed with the Massachusetts Energy Facilities Siting Board and the Department of Public Utilities three petitions in connection with the Companies' proposal to construct and operate a new, 345-kilovolt underground transmission line in Woburn, Winchester, Stoneham and Wakefield (the "New Line") and to modify two existing substations (Woburn Substation and Wakefield Junction Substation) to interconnect the New Line. This project is referred to as the "Woburn to Wakefield Line Project."

Copies of all three petitions are enclosed. Please make these available for public viewing during regular business hours.

Thank you for your attention to this matter. Please feel free to contact me with any questions or concerns.

Sincerely,

Jennifer J. Beckwith  
Paralegal
