## STONEHAM SCHOOL BUILDING COMMITTEE MOVES TO NEXT PHASE

Stoneham, MA – Members of the Stoneham School Building Committee (SSBC) will meet virtually on Tuesday, January 12 at 7:00 p.m. and again on Monday, January 25 to begin the next phase of work on the future Stoneham High School.

At its January 12 meeting, the Committee will review the Preferred Schematic Report submitted to the Massachusetts School Building Authority (MSBA) on December 23, 2020, in which the members identified their preferred option for construction of a new high school on the 149 Franklin Street site.

At the same time, the Committee will be apprised of the deliverables and schedule for the new Schematic Design phase, which will run through June 2021 and conclude with the submission of the Schematic Design Documents to MSBA for its review and approval. Work will focus on site plan, floor plan and elevation details including materials, systems and designs; and from this work, the Committee, aided by Perkins&Will and Symmes Maini McKee will prepare a final project cost and schedule. The Committee will also be considering recommendations from its subcommittee for the hiring of the Construction Manager at Risk.
